Designed, printed & mailed by Phillips.

So, your file room looks like a giant Rubik's cube of cardboard. Your Memphis branch needs 1000 letterheads by tomorrow, Knoxville needed them yesterday; you *think* you have 400 envelopes left, and you could build a small house out of the pocket folders. Every time you turn around a new problem presents itself. Storing and managing inventory can be puzzling.

Phillips fulfillment services is your solution. When you print a large quantity with us we can store it for you. We create an online store where you and your branches can log on and order what you need. We handle the shipping, send you an inventory balance every month and notify you when stock is running low. If boxes are puzzling you... think outside.
